## REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report.

### THE OUTLOOK BRIGHTENING

The Hardest Week Has Left the Business World Still Able to Rejoice in the Soundness and Strength Disclosed—Importation of Gold Has Begun and It Is Believed That the Worst Is Passed.

NEW YORK, July 29.—R. G. Dun & Company's weekly review of trade says The hardest week has left the business world still able to rejoice in the soundness and strength disclosed. Prices of stocks were greatly depressed Tuesday and Wednesday, closing lower than any other day since January, 1879, and the fall on Wednesday averaged over \$2 per share, and yet only two failures resulted and those of brokers not especially important. A sharp rally followed on Thursday with buying from London by shorts, and especially significant buying by small investors. No banks here or at other eastern cities, and no eastern firms of large importance have gone down, but numerous banks failed at the west, including some of high repute and large business.

The Erie railroad was again placed in the hands of a receiver, though for eight months of the fiscal year net earnings of the company had been larger than last year's, and earnings of other roads reporting are generally close to last year's.

The money market became excitingly stringent again with the depression in stocks, and the drain to assist other cities has been very heavy, but through all the strain the banks of New York have passed without trouble, and imports of gold have commenced.

From \$1,000,000 to \$2,000,000 in money has been sent west every day and a large decrease in bank reserves is expected, as the treasury has not been disbursing heavily. Few commercial loans have been negotiated and at high rates. At other cities the money markets have been quite close, but bank failures at Milwaukee, Indianapolis and Louisville have caused less disturbance than might have been feared. The treasury purchases silver sparingly and the exports of that metal have been large. Exchanges between this city and Philadelphia have been especially disturbed, but banks of the latter city continue to supply customers as well as they can. Chicago has drawn heavily on New York, but in that and other cities bank statements indicate creditable soundness.

New York woolen factories are closing for a month or more, or indefinitely, because orders are slack; for, while jobbers' orders are about as usual, clothiers still hold off. Fall trade is said to be not more than a third of the usual size, and many dealers expect to do no more than half the usual spring business. Dress goods are better in tone, but an unusually large proportion of carpet works is closed. Fall cottons, though half a cent lower than last year in price and exceptionally attractive, meet but moderate demand, and print cloths are weaker at 2.94 cents.

The knit goods business is somewhat better.

Sales of wool at the chief markets last week were 2,164,000 pounds, against 8,145,799 last year, and for three and one-half months 47,546,767, against 86,930,130 last year. Orders for boots and shoes are restricted, many shops running short time, while others have closed, and shipments from the east are 12 per cent less than for the same week last year.

The iron business grows less active, and in spite of past decrease in output the demand does not equal the supply; that four large furnaces at Pittsburgh are expected to close. Bar is weak and has been sold at 1.55 cents. Plates are in narrow demand and structural iron is irregular with beams down to 1.80 cents. Of steel bars, 28,000 tons were sold to agricultural implement makers at Chicago.

Boston reports wholesale and jobbing trade very conservative but retail trade as large as usual. Cottons have sold well until lately, and there are no accumulations, but some mills are closing to prevent overproduction. Woolens are quiet, lightweights being slow at prices 5 per cent below last year, and wool is weak with small sales. Orders for boots and shoes are small, leather and hides are quiet.

Philadelphia reports better feeling though very little commercial paper is sold at 7 per cent and banks are hoarding money though caring for depositors. In textile manufactures there is no improvement, and many mills are closing for want of orders.

Trade at Baltimore is quiet. Banks are strong but close, and commercial risks taken are narrow.

No gain is seen at Pittsburgh, where the demand for iron is small and the majority of mills are closed, though two have resumed; but the wage scale for iron and glass is not settled.

At Cleveland trade is dull, except for groceries.

At Cincinnati orders are not improved.

Chicago reports smaller receipts of most products, decrease of 22 per cent in clearings, 84 per cent in real estate sales, and 20 per cent in eastbound shipments, jobbing trade fair and retail, very satisfactory. Banks are calling some loans; heavy demands for accommodations continue at 7 per cent, but the best customers are supplied and money is tight as ever. Wheat is at the lowest price ever named, and local securities are pressed for sale.

At Milwaukee the failure of the three oldest banks caused intense excitement and heavy commercial fail-

ures, large holdings of iron syndicate paper being the cause, and business is contracting.

Jobbers at St. Paul are conservative, but average crops are expected.

Omaha reports quiet trade except for groceries, and Sioux City good crop prospects, but jobbing trade and pork packing curtailed.

Jobbing trade is quiet at Kansas City, cattle receipts moderate at lower prices and hog receipts liberal.

Denver has quiet trade and slow collections.

St. Louis reports fair trade for the season, except in building, and no complaint among jobbers.

At Knoxville and Nashville trade is fair; at Little Rock very conservative but safe; at Columbus and Macon the outlook is good, though money is tight.

New Orleans reports trade exceedingly dull and money very tight, but banks sound and crop prospects excellent.

Mobile reports fair crop prospects; Jacksonville a close and cautious trade, and Charleston dull but sound business.

Failures during the past week number 386 in the United States against 171 last year, and 23 in Canada, against 22 last year. It is noteworthy that only three failures were of capital above \$200,000 each, and only 99 of capital over \$5,000 each.

Over 50 banks stopped during the week, but nearly all were at the west. Last week the failures in the United States numbered 457, and the previous week 374.

### NEW YORK CLEARINGHOUSE.

It Is Assisting the Banks to Tide Over the Monetary Stringency.

NEW YORK, July 29.—The clearinghouse committee had a long session and issued \$2,150,000 certificates. Nearly all this amount was taken out by banks on commercial paper, which shows that the banks are assisting their merchant customers. The situation was talked over by the bankers at the clearinghouse meeting, but only in an informal way. The banks individually will assist as far as possible any of their customers who wish to import gold, but such assistance is solely on the bank's own account.

It is apparent that there is large buying of railroad stock in small lots for investment. At the office of the Chicago, Milwaukee and St. Paul it was stated that the transfers in the last month amounted to about 1,000,000 shares, all in small lots. One lot of 50 shares was divided up among seven people. The officials in the St. Paul office said that they never knew of such an amount of small lot transfers.

### Shipping Silver to Europe.

NEW YORK, July 29.—Handy & Hartman will ship 100,000 ounces of silver, and Haskier, Wood & Company, 70,000 ounces on the steamship Etruria. Zimmermann & Forsyth will send 27,000 ounces of silver and 10,000 Mexican dollars to Europe on the steamship Ems.

### No Silver Purchased.

WASHINGTON, July 29.—The amount of silver offered for sale to the treasury department aggregated 250,000 ounces at prices ranging from \$0.7050 to \$0.7060 per ounce, all of which was declined, and \$0.7030 tendered.

### Arrival of Gold.

NEW YORK, July 29.—The steamship Columbia brought five boxes of gold bars and coin valued at \$247,500.

### Only Eloquent Speech Saves a Kentucky Town From a Panic.

LEXINGTON, Ky., June 29.—The Traders' Deposit Bank of Mt. Sterling, Ky., with a capital stock of \$200,000 and a surplus of \$80,000 has assigned. This failure and that of the Farmers' bank the day before caused the greatest excitement and heavy runs were started on the two remaining banks in the town. The streets were crowded with people and a genuine panic ensued.

For awhile it looked as if both banks would have to suspend, but ex-Chief Justice Holt, Mayor A. Woods, Judge French and other prominent men addressed the throng of scared depositors and besought them to have confidence, and assured them that their money was safe.

Before long the eloquent appeals had their effect, and within two hours after the bank opened the runs had ceased. Confidence is thought to be restored and a black Friday has been averted.

### At Great Falls, Mon.

GREAT FALLS, July 29.—The First National bank of this city suspended, owing to the Helena bank suspensions. Assets are much above liabilities, and it is believed it will soon resume. Stringency is given as the cause of the failure. The bank was owned in large part by the Great Falls Townsite company, and was a depository for the Great Northern railway.

S. C. Ashby, the largest dealer in agricultural implements in Montana, with stores at various points, has assigned to Robert S. Ford, president of the Great Falls National bank.

### At Port Washington, Wis.

PORT WASHINGTON, July 29.—The German American bank has closed its doors. The bank had been singularly unfortunate, having been caught in both the Plankinton and Mitchell bank failures at Milwaukee. M. Andier has been appointed receiver. There are ample securities and depositors will lose nothing.

### Private Bank Closed.

CHIPPewa FALLS, Wis., July 29.—G. W. Seymour's private bank closed its doors here. There are runs on all the other banks in the town.

### One in Oregon.

PORTLAND, Or., July 29.—The Union Banking company has suspended.

### TWO TOWNS DESTROYED.

The Fire Plend Visits Prentice and Fildfield, Wisconsin.

PHILLIPS, Wis., July 29.—Great excitement prevailed here during the afternoon about fires in the neighboring towns of Prentice and Fildfield. About 4 o'clock a call for assistance came to B. W. Davis, secretary and manager of John R. Davis Lumber company, from Prentice. In about 15 minutes he had the company's engine coupled to two freight cars and with hose and 60 of the business men and his employees, proceeded to Prentice, where, after two hours' vigorous work the fire was gotten under control, with the exception of the Soo Railroad company's coalsheeds.

About 5 o'clock a call for assistance came from Fildfield, but as so many were absent at Prentice no one could go. The fire at Fildfield was much more serious than at Prentice, starting in a shed at the Clifton House and sweeping away 39 business buildings and a few dwellings, taking all the business portion of the town. No estimate can be made of the loss at this time, but it must reach over \$100,000. Rain came during the night, which for the present will check forest fires, that have been doing considerable damage.

### ATTEMPTED MURDER.

A Negro Convict Assaults Two of the Overseers With a Knife.

PITTSBURG, July 29.—William Lancaster, a negro convict in the western penitentiary, made a desperate attempt to murder John McVeigh and Albert Reese, overseers in the mat department. He cut McVeigh's throat, but the wound is not deep enough to be fatal. The two overseers were talking near a stone where the prisoners employed in the mat shop sharpen their knives.

Lancaster came to sharpen his, and when McVeigh's back was turned he made the assault. McVeigh shook him off and retreated. Lancaster turned on Reese but missed him. Reese drew a revolver. Lancaster threw a brick at Reese, whereupon Reese fired but missed the negro. Hearing the shot Warden Wright came to the overseers' assistance and Lancaster was put in a dungeon. The negro would have been liberated today had he not made an attempt to break jail at Washington, for which six months was added to his first sentence.

### Death of Robert H. Foss.

DOVER, N. H., July 29.—Hon. Robert H. Foss of Barrington, N. H., died yesterday, aged 74. He early became a Free Mason, and for many years was standard-bearer of the active members of the thirty-third degree of the Northern Masonic jurisdiction, and treasurer of the grand commandery of Illinois. As a politician he was the first of the Old Guard of Republicans in Illinois, and it was credited to him that he carried off the two doubtful members of the Illinois legislature for John A. Logan for senator. Mr. Foss was chairman of the committee on finance when Long John Wentworth was mayor of Chicago, and to him the credit can be given for the present system of sewerage in that city.

### Peculiar Accident.

PHILADELPHIA, July 29.—A peculiar accident occurred at Cramps shipyards, on board the cruiser New York. While five ship carpenters were cleaning their tools with benzine, the friction of one of the men's hands over the tools caused the benzine to explode at the same time exploding a can of the fluid that was on the floor of the deck and scattering it all over the men. Two of the men were seriously, and the other three painfully burned by the explosion.

### Western Miners Marching Eastward.

ST. LOUIS, July 29.—The advance guard of the Colorado miners who are tramping eastward has entered Missouri and every railroad track leading towards the Mississippi river is black with humanity. About 250 of the army reached Sedalia last night and were provided with food by the citizens. The trainmen have given up all attempts to keep them off the trains, and are now permitting them to ride unmolested.

### Strike Broken.

KANSAS CITY, July 29.—The operators are now confident that the backbone of the miners' strike in southeastern Kansas is broken. The first shipments of coal from Weir City for over two months were made yesterday, and several strikers returned to work. Everything is quiet at Weir City, Pittsburg and Litchfield. The number of guards at each place has been reduced.

### Russia Protecting the Seals.

ST. PETERSBURG, July 29.—An imperial Ukase just issued forbids the killing or capturing of fur seals on Russian land without special permission from the government. Violations of the decree is made punishable by imprisonment, and forfeiture of ships.

### A Negress Hanged.

CHARLESTON, July 29.—Ada Hires, a negress was hanged at Waterboro yesterday for the murder of her half brother last June. She stood on the scaffold that her father, who was also convicted, but respited by Governor Tillman, had nothing to do with the crime.

### Will Resume Work.

TROY, N. Y., July 29.—Notices have been posted of a general resumption of work on Monday next at the Burden iron works and the Clinton foundry. This is much sooner than expected. Several thousand persons will be benefited.

### Mills Closed.

PROVIDENCE, July 29.—The following mills in Burrillville have closed: A. L. Sales & Sons, Arnold & Perkins, Job Fiske, Jr., W. A. Inman, William Tinkham & Company, J. D. Nichols & Sons.

### ACROSS IN A SKIFF.

The Task Chris Paulsen of Viking Blood Has Set Himself.

NEW YORK, July 29.—Chris Paulsen came from the land of the Vikings, and after a tempestuous career upon the seas settled in Rahway. In the quiet of his barnyard he is now completing a 16-foot skiff, in which, all going well, he will cross the Atlantic to visit his parents in Norway. Paulsen is 36 years old and inured to the hardships of sailor life.

When the Viking arrived here Paulsen saw her, talked with her crew and was seized with the idea of crossing the ocean in a still smaller boat. He at once began to prepare his plans, and so well did he carry them out that before this week is ended his boat will be launched. Her dimensions are: Length over all, 16 feet; beam, 5 feet; depth, 3 feet 6 inches; keel, 10 feet. She will be rigged with a low free board and with a water-tight compartment in each end. Rubber tubes will be run along the gunwales to add to her buoyancy. She will be sloop-rigged, the mainsail being 12 by 12 feet, with a jib 6 by 10 feet. She will be sharp at both ends.

Paulsen expects to start on Aug. 20. He does not intend to take provisions enough for the whole trip, as he will follow the course of the transatlantic liners and expects to obtain fresh provisions from time to time. Two tanks holding 100 gallons of water will be stowed away, one in each end. His only food will be hardtack. Paulsen expects to make the Shetland islands in 36 days.

### PRESIDENTIAL APPOINTMENTS.

Two Important New York Offices Filled by President Cleveland.

WASHINGTON, July 29.—Private Secretary Thurber has announced the following appointments as made by the president: James T. Kilbreth of New York city, collector of customs for the district of New York, vice Hendricks, resigned; Walter H. Bunn of Cooperstown, N. Y., appraiser of merchandise for the district of New York, vice Cooper, resigned.

Walter H. Bunn, who has been appointed by President Cleveland as appraiser of merchandise for the district of New York, is a lawyer, about 53 years of age. Under Mr. Cleveland's former administration Mr. Bunn was United States marshal for the northern district of New York.

James T. Kilbreth, the new collector of customs of New York, is a native of Cincinnati, 52 years old. He served two terms as police justice in New York city from 1874, to 1892, and at the expiration of his last term, Tammany declined to reappoint him, he not being identified with that organization. Mr. Kilbreth married Mrs. Oudin, mother of the famous tenor singer of that name, and is a brother-in-law of General Agnus of The Baltimore American.

### TRAGEDY IN A COURTROOM.

One Man Shot and Another Has His Throat Cut.

RUSSELLVILLE, Ala., July 29.—A tragedy was enacted in the criminal courtroom here yesterday, resulting in the death of one man and the wounding of another. During the trial of a divorce case a difficulty arose between John Ligon and Line and Clark Richardson, two brothers, which resulted in Ligon shooting Line Richardson in the left shoulder and Clark Richardson cutting Ligon's throat from ear to ear. Richardson may recover.

Ligon married Mrs. Richardson, the mother of Line and Clark Richardson. He was so disagreeable that she was forced to leave him some months ago. She sued for a divorce, and during the trial here yesterday Ligon made some slanderous remarks about her. Line Richardson gave him the lie. Ligon called young Richardson a vile name, drew his pistol and fired, and was in the act of shooting again when Clark Richardson rushed to the rescue and cut his throat from one ear to the other with his knife, thus saving his brother's life.

### RAILROAD COLLISION.

Passenger and Freight Train Come Together Injuring Six People.

INDIANAPOLIS, July 29.—The Pittsburg, Cincinnati, Chicago and St. Louis passenger train from Chicago collided with a freight train just north of this city on the Lake Erie and Western track which are used between here and Kokomo by the Pennsylvania company. Both engines and baggage and express cars of the passengers were wrecked.

Six people were injured, as follows: Al. Woods, passenger engineer, Indianapolis, ankle broken and face hurt. Walter Ensey, passenger fireman, face and head badly injured.

F. M. Barnard, express messenger, Logansport, dangerously blow on head. C. C. Keene, Chicago, leg and body scalded.

Samuel Cutsinger, Edinburg, Ind., hand injured.

Mrs. Henry Fry, Louisville, face cut and bruised.

### Five Tramps Crushed to Death.

ERIE, Pa., July 29.—A Lake Shore freight train broke in two near Harbor creek and the sections collided. Five tramps riding on a coal and lumber car were caught. Louis Real and Daniel Egan of Chicago were crushed to death. John Sullivan was badly hurt and Frank Patterson slightly. The fifth man is missing.

### Quiet Day at Buzzard's Bay.

BUZZARD'S BAY, July 29.—Yesterday was another quiet day at Gray Gables. The president spent the entire day at home, with the exception of driving up to the village at noon for his mail. Mr. Cleveland is undoubtedly spending his remaining days here in completing his message to congress.

## CHOLERA NOT COMING

Dr. Wheeler Reports the Result of His Mission.

### HE HAS DONE HIS WORK WELL.

He Says That He Considers the Outlook Most Favorable at All Except the Mediterranean Ports—Serious Conditions of Affairs in the El Pindo District.

NEW YORK, July 29.—Dr. A. W. Wheeler, the United States marine hospital surgeon who was recently sent abroad by the treasury department to examine into the sanitary condition of the ports where emigrants are embarked for this country, has sent the following communication to Dr. Senner, commissioner of emigration:

"In reply to your letter asking my opinion as to the probability of an epidemic of cholera appearing in the ports whence emigration usually comes to us, I have to state that the outlook I consider to be most favorable at all except Mediterranean ports. At Hamburg, whence we get a large number of people, and which, as you remember, was visited by cholera last year, there has as yet been no recurrence of the disease, which it was greatly feared there would be. The city authorities have done and are still doing everything in their power to prevent its introduction from abroad and to suppress it should it appear. At an enormous expense, all water in the city now is filtered and purified. As the weeks roll by the chance of escaping the disease improves so far as northern ports are concerned. With regard to the Mediterranean ports, it may be said that sporadic cases of cholera appear in Marseilles and Naples almost every year, and the presence in those cities of a few cases does not by any means indicate that an epidemic will follow. Since the last epidemic at Naples the sanitary condition of the city has been greatly improved; first, by the introduction of water from a mountain lake situated 50 miles in the interior, the water being of great purity and brought underground to Naples. An active municipality is also alive to the dangers to the commerce of Naples in the event of an epidemic of cholera, and will use every effort to suppress the disease should it appear. You will, therefore, see that I am inclined to be very hopeful regarding any serious outbreak of cholera in foreign ports this season, and do not anticipate any marked diminution of immigration from that cause."

### Serious Condition of Affairs.

MADRID, July 29.—The condition of affairs in El Pindo district, in the province of Corunna, where a number of cases of suspicious sickness were reported, is serious. It has transpired that 40 persons have been attacked with a choleraic disease within the past few days. Of the persons attacked 12 have died. It is believed that the disease is Asiatic cholera, although there is no official notification to that effect.

### BURGLAR SURPRISED.

Shots Were Exchanged and One Man Is Dying.

RAVENNA, O., July 29.—At 2 o'clock in the morning a burglar entered the house of Nelson Converse, a well known merchant of Kent, and proceeded to ransack the premises. While he was engaged in the work the noise aroused Mr. Converse and his nephew, Pierce Converse of Texas, who is visiting him.

The two cautiously made their way down stairs and surprised the marauder. They finally opened fire, which was just as promptly returned by the crook. Shots were exchanged, and young Converse, who is only 17 years old, was severely wounded.

The thief succeeded in making his escape, but could go no further than another house, where he fainted from the loss of blood, and was forced to surrender. He was taken to jail and locked up. He gave his name as Frank Edwards, and says he is from Chicago. He is about 25 years old. Young Converse is in a critical condition, and may die.

### AN EX-CONVICT RAISES A ROW.

He Finds His Wife Living With a Negro and a Murder Follows.

CLEVELAND, July 29.—Last Monday a white man named Davis was released from the Ohio penitentiary and went to Corning, O., where he found his wife living with a negro. Last night he loaded up with whisky and went to his wife's home. A quarrel was started which soon resulted in a fight. There were several persons in the house at the time, and the fighting became general. Knives and revolvers were freely used and a number of shots were fired.

James Clifford, a white man, was shot in the breast and died a few minutes later. His wife was shot in the thigh and is suffering greatly. Davis was seriously cut about the head, breast and arms and can not recover. A colored man named Walker was shot in the leg.

Both Mrs. Davis and the colored man who lived with her escaped with only a few slight cuts and bruises. All the participants in the affair except Davis, who is too ill to be moved, are under arrest.

### Senator Beckwith to Resign.

DENVER, July 29.—A Cheyenne, Wy., special to The Republican says it is authoritatively stated that Senator Beckwith will hand his resignation to the governor next Monday and that Collector A. L. New who was a prominent candidate before the legislature last winter will be appointed to the vacancy.

### WEATHER INDICATIONS.

For Kentucky, local showers, but fair during greater portion of the day; westerly winds; slightly cooler in the western portion Saturday evening.

### THE BANK PANIC.

The Louisville Post has the following to say about the present financial scare and the banking business of Louisville, and we have no doubt but that a great deal of it applies properly to other localities: "There is little to say about the financial situation. Fear has done its perfect work. Men wanting their money have been so eager in their demands for it that they have postponed the day when they can call it their own again.

"The suspended banks can not in any way aid this community until the storm of unreasoning fear has passed. The money in them is there to remain.

"It is safe, as we firmly believe, but useless for the time being.

"The panic is unreasonable. As far as the depositors are concerned we can say without hesitation that we do not believe there is one dollar in peril. The only danger that has arisen has been due chiefly to the action of the depositors themselves.

"Commerce is at a standstill and must do without money. But the reorganization of the banking machinery will give us something better than we have known, and the principles of banking, its nature and character will be better understood.

"Louisville has had too many banks. The expense of the banking business has been too great. The bidding for business has been too active, and the business so bid for has brought ruin, for it is the first to take alarm and slip away."

### WHAT'S THE MATTER WITH HALE?

Treasurer Hale seems to have lost his head in the excitement of the past few days. The order not to receive checks is without reason or excuse. It adds greatly to the difficulties of a situation which public officers should seek to relieve, not to aggravate. Payments to the State by checks impose no risk on the State; if the bank should not pay, the man who drew the check would. At any other time such an order would simply discredit the Treasurer's judgment; at this time it puts him in the position of using the power of his position to cause endless and unnecessary confusion to all business interests.

The negroes taken from Southern States to work in the coal mines at Weir City, Kas., are being drilled inside the stockades about the mines and prepared to fight if attacked by the striking white miners. The famous Captain Cleary is in charge of them and strict military discipline is maintained.

SENATOR STEWART, of Colorado, in an interview in the New York World, says the country is going to hades, but may be headed off if a substitute for the Sherman law is devised by which both gold and silver may be kept in circulation. Senator Jones, of Nevada, thinks so too.

SECRETARY CARLISLE fully sustains Collector Clark, of the Chicago Custom House, in his conflict with the Russian exhibitors at the World's Fair. No international complications are likely.

### Stock.

The fastest mile trotted this year is the 2:04, of the gelding, Guy at Detroit.

The fastest mile trotted this year by a mare is the 2:11, of Muta Wilkes at Detroit.

The fastest mile trotted this year by a stallion is the 2:12, of Dr. Sparks at Detroit.

The grand filly Maid Marian broke the world's record for a mile and twenty yards by going the distance at Washington Park, last week, in 1:40. The best previous time, 1:41, was made at the same track one year ago by Yale '91.

Distemper among horses is epidemic in Spencer county, Ky., and throughout Southern Indiana. Several horses have recently died from it in Spencer county. The disease seems to be more prevalent among the young horses, and is in more acute form than ever before.

The mare Sunol, whose record of 2:08 is the fastest ever made on any track to an old-fashioned sulky, left the stable of her owner, Robert Bonner, last week, to go to his farm, near Tarrytown. Sunol has had a winter of perfect rest, and will now be given work to prepare for being trained this fall.

### Notice to Tax-Payers.

The taxes for 1893 are now due at my office at Keith-Schroeder Harness Co.'s. On and after the 1st day of August 5 per cent. penalty will be added.

JAMES W. FITZGERALD,  
Collector and Treasurer.

### Ruggles Camp Grounds.

At the mention of camp meeting most people associate with it the assembling together of all classes of people—all the roughs and toughs of all classes. But Ruggles camp meeting is not that kind of a place. This ground has been consecrated to God and his service, and the directors, all christian men, backed by the powers of this Commonwealth, are determined that this consecrated place shall be used for no other purpose than that for which it was dedicated, and all evil-doers have learned in the years passed that this is no place for them, and so christian people of whatever name or denomination are made welcome among us and they can worship God unmolested by that class who are disturbing other camp meetings.

There are now fifty-three nice cottages on the grounds, besides the preachers' cottage and the children's chapel. All of these, I believe, are rented except two. It might be called the White City, as all the buildings are nicely whitewashed, and it adds very much to their appearance, and as each family gets their house in order they are very home-like and inviting in their appearance.

Our first service was this morning at 6 o'clock, and was led by Presiding Elder Rev. A. Boreling. Then came the 9 o'clock experience meeting. This service is always full of interest and well attended.

The new arrivals are: From Maysville, Mr. Walter Cady, our Maysville artist, Mrs. Emma Brown, Mrs. Jennie Hedlin, Miss Mollie Hedlin, W. H. Hedlin, J. Harry Richardson, cornetist, Chas. Viceroy, Prof. W. G. Bloom, Misses Lily and Agnes Easton, our Chief of Police, W. B. Dawson, Miss Mary McClanahan, Mrs. John Crane, Mary and Lizzie Crane; Rev. C. M. Baker, of Vanceburg; Rev. T. B. Stratton, of Tollesboro; Mattie Hutchins, Ida Clinger; from Burtonville, Morris Parsons and wife and Miss Dela Parsons; from Mt. Carmel, Boyd Kelley, Miss Blanche Kelley and Mrs. S. E. Foxworthy.

This is the most delightful weather for camping that we have ever experienced. Everything is now in working order, and everybody happy, especially the children, God bless them, they are the life of the camp, with their bright, cherry faces. As they go romping through the woods they remind one of a lot of fairies, then this is so good and healthful for them, we love to see them here.

There are five preachers on the grounds and more will be here to-day, so we shall not lack for preaching.

Miss Wisenall held her first children's meeting yesterday evening, with a good attendance.

Rev. Baker preached at night. His subject was: "Pour Out," II Kings, 4: 5.

Sunrise prayer service this morning at 6 o'clock, led by Rev. Baker. At 9 o'clock, experience meeting; 1 o'clock, children's meeting, led by Miss Wisenall.

Arrivals: John Brodt and wife, also his son-in-law, George Bendel, and his son Edwin, from Newport, Ky., Miss Anna Riggen and her mother, Rectorville; Rev. Cyrus Riffe, Mt. Olivet; Rev. Fringer, Dayton; Rev. Jolly, Sardis; Rev. College, Germantown; John Crane, Maysville.

This is Epworth League day. Their motto is beautifully arrayed over the pulpit, "Look Up and Lift Up." Dr. Moore preaches to-morrow at 10 a. m. Monday will be memorial day, Mrs. I. M. Lane, of Maysville, Mrs. Conaway, of Mt. Carmel, and Mrs. Hattie Marshall, of Tollesboro, having died during this year.

Gates will open free on Monday.

CHIPPED and corned beef, Calhoun's.

ATTENTION is called to the advertisement of the Misfit Clothing Parlors. For good goods and low prices they can't be beat.

MR. CHARLES D. PEARCE, of Louisville, was called to Waukesha, Thursday night by a telegram announcing the serious illness of his father, Mr. C. B. Pearce, of this city.

THE usual morning service at the Christian Church at 10:30 a. m. The night service for a few weeks will be omitted. All are made welcome by the pastor and people. E. B. CAKE, Pastor.

At the first Baptist Church there will be services at the usual hours to-morrow, conducted by the pastor, Rev. R. G. Patrick. After to-morrow there will be no preaching services for one month, as the pastor will be absent from the city.

Now is the time to buy. I will place on sale commencing to-day fifty ladies' watches, regular price \$45, your choice for \$30; fourteen karret, stem wind, handsomely engraved, Elgin or Waltham movement. P. J. MURPHY, Successor to Hopper & Murphy.

When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

MAJOR McDOWELL, Commissioner of Agriculture, sent Dr. A. H. Wall two bushels of seed wheat last fall. It yielded sixty bushels upon one and one third acres, or forty-five bushels per acre. Two bushels of another kind yielded thirty bushels per acre. His entire crop will average about thirty bushels to the acre, and was raised on his farm on the Germantown pike.

MISS TILLIE DOWNING, of the Washington vicinity, has returned from her trip to the World's Fair. She had the pleasure of meeting and enjoying the company while there of Mrs. Laura Stillwell Greene, formerly of this county, but now of St. Louis. Mrs. Greene was a schoolmate of Mrs. Downing, and made the stay very pleasant for her daughter. Mrs. Greene is a highly intelligent lady, and is engaged in writing a book. Her father was an old resident of this city.

THE per capita to school children in Kentucky this year will be \$2.85 an increase of 35 cents over that of last year, and 60 cents over that of the next preceding year. There may be a slight deduction in each county varying with the number of districts containing less than forty-eight children of the school age, but this will be compensated by the added interest on county bonds. The number of school children in the State is nearly 712,000, and the amount to be paid out this year for their tuition amounts in round numbers \$2,000,000. This is a proud record for Kentucky.

## MARSHALLS-FORMANS.

The Visit of W. M. Paxton, of Platte City, Mo., to His Old Home at Washington, Ky.

The quiet village of Washington, Ky., has been aroused from its slumbers by the visit of W. M. Paxton, of Platte City, Mo. He has been the guest of the Marshall and Formans throughout the past week. He was born in Washington seventy-five years ago. His father was James A. Paxton, a lawyer of eminence, more than half a century ago, and his mother was Maria, daughter of Alex. K. Marshall the Kentucky reporter. He married Mary, daughter of Ezekiel Forman, and this union constituted the first tie between these old families, now so interlinked in social life, he is the only brother of the wife of Colonel Charles A. Marshall.

Mr. Paxton was the guest of the town of Washington at a family dinner at the house of Mrs. Jane Forman on Tuesday, July 25, 1893, he feelingly referred to the Forman family, and naming the living and the dead, recited their virtues, and dwelt upon their social and religious characters. The touching allusions to the departed members of the once large and worthy household brought tears from all the eyes.

On Wednesday afternoon, July 26, Miss Mary W. Marshall gave a reception to Mr. Paxton, inviting all his near relations of both families, some fifty persons attended, and after an hour of social pleasure, Mr. Robert Marshall called all to the drawing room, and after offering the toast, "the Marshalls and the Formans" called upon Mr. Paxton for a response. Mr. P. commenced by touchingly alluding to his surroundings, pointed to the spot where his father had married, and where he had died—referred to the silent graveyard where lie the remains of his father and of the illustrious Colonel Thomas Marshall of Revolutionary fame, and of Mary Keith, his wife, the mother of fifteen children, all of whom married and added renown to Virginia and Kentucky.

Mr. Paxton is the historian of the Marshall family, and, after visiting all of them in 1884, published a large chart with sketches of the members of the family from the earliest records down to the birth of the last child, all families connected by marriage with the Marshalls are noticed and genealogies appended. This volume of 450 pages, arranged and indexed in a new and remarkable manner contains in convenient form more of Kentucky genealogy than any book extant. It may be obtained of Robert Clark & Co., of Cincinnati, Ohio, for \$2.50.

Mr. Paxton in his remarks claimed that the Marshalls of Virginia and Kentucky claimed more men of celebrity than any family on earth. To show this, he referred to the index of his book and counted twenty-nine names of "Thomas Marshalls" he chose this name, because there were more Marshalls of that name than any other, taking from these twenty-nine Thomases one-third for those yet in infancy, he named from the others, the following illustrious personages:

1. Colonel Thomas Marshall, a hero of Valley Forge and Germantown and of Brandywine. He saved the American army at the latter battle, and in doing so, had his regiment cut to pieces. He was the friend and confidant of Washington, and the early surveyor General of Kentucky.
2. His son, Captain Thomas Marshall, member of the convention that formed the first Constitution of Kentucky, and the first Clerk of Mason County. He erected the house in which this meeting had convened, and made it the center of the most distinguished literary circle ever formed in the State.
3. His son, General Thomas Marshall, of the Mexican war—the Blucher of Buena Vista and the Provisional Governor of Mexico. He had no son, but
4. Thomas Marshall, his nephew, now of Salt Lake City is one of the most distinguished lawyers of the West, and his name is suggested as the first Senator from the proposed State of Utah.
5. Thomas Marshall, son of the Chief Justice of the United States—killed in early manhood by a brick falling from a church, in which he had taken refuge in a storm. His memory is still green among his descendants, and he is honored for his literary, philosophic and historic attainments, and his noble religious zeal.
6. His son, Colonel Thomas Marshall, of Ashby's Cavalry, who, after deeds of heroism, shed his life's blood in defense of his beloved State.
7. Thomas A. Marshall—for twenty-seven years a Judge of Supreme Court of Kentucky, and one of the most beloved men of his day.
8. His son, Thomas A. M. C., from Illinois, the friend of Lincoln, and one of the formers of the Republican party.
9. Thomas A. Marshall, son of Martin of Augusta, Kentucky—a Mississippi reporter and one of the most illustrious lawyers of the South.
10. Thomas A. Marshall, his son, of St. Louis, Mo., who is fast rising to eminence in the State of Missouri.
11. Thomas P. Marshall, son of Dr. Louis Marshall, of Versailles—the orator and statesman, whose eloquence thrilled the heart and ruled the actions of millions—the pride of Kentucky, and the Paragon of the West.

Other Thomas Marshalls might be named whose fame was less extensive but here are eleven of the name—more than half—who have made the name illustrious.

Mr. Paxton said that these eleven Thomas Marshalls equalled any eleven of Kentucky's most honored names. But it must be remembered that the Thomas Marshalls do not embrace more than one in a hundred of the family.

You may select any other name, and in the same proportion the surname is honored.

Mr. Robert M. Marshall and others being called upon made short and pointed remarks. Mr. Marshall being particularly happy in his allusion to two honored members of the Forman family—Mr. George L. Forman and Mr. William Forman, as two of the kindest and most generous men whom it was ever his good fortune to know.

The evening was one of much pleasure, and will long be remembered by all whose good fortune it was to be present.

A MERCER COUNTY farmer is going to hold his wheat crop of 20,000 bushels until he obtains seventy cents for it.

LOUISVILLE Post: "Mr. Rolla Hart, Representative from Fleming County in the last Legislature, is a candidate for reelection without opposition. Mr. Hart is one of the leaders of the young Democracy. He is a man of intelligence, conviction and courage, and made a most excellent member. His abilities were conceded even by his opponents. Mr. Hart has been suggested as a probable candidate for speaker, and should he prefer that position to the commanding position on the floor, he would make the race interesting even for Mr. Carroll."

## ROBBED AN OLD MISER.

Two Flush Neighboring Farmers Arrested on Suspicion.

WOLCOTT, N. Y., July 29.—The sheriff at Lyons has in his custody two young farmers, who are charged with robbing a miserly old farmer of about \$7,000. Jacob Livingston owns about 600 acres of valuable land at Caycat, a backwoods settlement in the northeastern part of this township. He also has about \$12,000 in mortgages. His house is old and tumbling about his ears. He slept on a bed of old and filthy rags, with a musty feather tick as a covering. He is 80 years old, and is partially deaf and blind. All his life he has deprived himself of necessities of life. He has one son, who is the natural outcome of such surroundings—dirty, ignorant and verdant. Livingston keeps his money in a wicker basket in a chest in a closet upstairs, having little or no confidence in banks. The door to this closet was boarded up, and he entered his treasure house by a ladder from the outside.

On the evening of June 11 a man went to his door and asked permission to warm himself. The old man wondered at this, as the air outside was warm enough, but the stranger came along in and sat down. The old man noticed a strange odor in the room and soon afterward fell asleep. When he awoke he was in the dark and alone. It was nearly daylight. He soon discovered that the door leading to his treasure room had been beaten down and his money stolen. Only useless paper and a \$50 bill were left. Much of the money was in yellow shiners, \$10 and \$20. He reported his loss to the authorities at Red Creek, but the public knew nothing of it until Friday. The idea of the officers was to watch until some of the money was spent.

Thursday Fred W. McPherson of Victory, Cayuga county, and John Earle of Sterling, same county, were arrested and brought to Wolcott for examination before Justice Kellogg. The examination proceeded Thursday. Both are laboring men and became suddenly rich. In June Earle bought a farm, for which he paid \$3,300 spot cash. McPherson bought gold watches for himself and wife, and dressed up his family in extravagant style. A search warrant brought to light several notes, amounting to \$500. The evidence against these men is deemed to be ample for their conviction, though they have engaged the best lawyers here and will make a stubborn fight.

Livingston was in court looking abject and miserable. He said he lost \$1,500 by theft two years ago, which was never recovered. He said he thought it might have been a little more to the purpose had the robbers taken the old man and left the money. Should these young farmers be proved guilty, much of the property can be recovered. But the legal expenses will likely eat it up.

## FIRE IN THE HOLD.

For Thirty-Six Days It Burned in the Ship Cedar Bank.

SAN FRANCISCO, July 29.—Thirty-six days' battle with flames was ended Thursday night by the arrival of the British ship Cedar Bank from Newcastle, N. S. W. The vessel started March 3 and was laden with coal, and had a fair voyage until June 20, when the cargo was discovered on fire. Prompt efforts to extinguish the flames proved unavailing, and it was decided to jettison a part of the cargo. Two hundred and sixty tons were thrown overboard and then, owing to the extreme heat in the hold and great difficulty in handling the burning coal, it was necessary to desist. Large quantities of water were thrown into the hold, the pumps a part of the time going day and night.

On July 16 two explosions occurred and flames burst out and ran all over the hold. The hatches were kept battened down as much as possible. The crew was obliged, on account of the heat, to abandon quarters in the fore-castle and go aft. Boats were provisioned and towed astern for emergency. One day another vessel hove in sight, but passed without seeing the Cedar Bank's signals of distress. Fire continued to make headway, and the decks, sides, ventilators and all parts of the vessel became very much heated, and smoke poured from the hatches and other crevices. Port was finally made in safety. The vessel will be beached and the cargo flooded.

## AN AGED TRAMP.

Ray Earl Will Try to Walk From New Haven to Chicago.

NEW HAVEN, July 29.—Ray Earl, 80 years old, has started to walk to Chicago on a wager of \$100 that he can cover the distance in 42 days and take with him no money for food or other purposes except what is necessary to pay ferriages, trusting to luck and the notoriety of his trip to obtain sustenance for him on the way. A valise, with its contents, weighing 19 pounds, an extra coat and an umbrella, complete his equipment. The distance on foot is about 950 miles. The old man is in vigorous health, has made long tramps before, and is confident of making the journey within the time specified. He carries credentials from this city that will identify him on the way.

## INCREASE IN SUICIDE.

Startling Statistics Gathered by the French Government.

PARIS, July 29.—After an unprecedented delay the government has issued the official report of the administration of criminal justice for the year 1891. The delay may possibly be explained by the startling nature of certain portions of its contents. The chapter devoted to the subject of suicides gives the total number of acts of self-destruction as 8,180, or 21 to every 100,000 inhabitants, an increase of 25 per cent over 1881. Seventy-eight per cent of the suicides are male, and hanging was chosen by over half of the total number.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, the Husband, Those intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.
